

CHEMICAL AGENTS

Plate Cleaning

QUICKER Cleaner UV

Post-print printing plate cleaning liquid.
Manual and machine washing.

Volume: **10L, 20L**
Recommended solution: 100%

PURPOSE

FLEXO

WASHING PROCESS

INKS

Water Solvent UV

QUICKER Cleaner Solvent

Liquid for washing printing plates after solvent inks printing. Manual and machine washing.

Volume: **20L**
Recommended solution: 50% or 100%

PURPOSE

FLEXO

WASHING PROCESS

INKS

Solvent

QUICKER Cleaner Solvent NT

Liquid for washing printing plates after solvent inks printing. Manual and machine washing.

Volume: **20L**
Recommended solution: 100%

PURPOSE

FLEXO

WASHING PROCESS

INKS

Solvent

For washing press parts

QUICKER Cleaner Master

Agent for washing and cleaning printing plates and parts stained with UV and water inks. Manual and machine washing.

Volume: **20L, 200L**
Recommended solution: 100%

PURPOSE

PARTS

WASHING PROCESS

INKS

Water UV

QUICKER Cleaner MEK

Liquid for washing and cleaning printing plates and parts stained with solvent inks, including PVC and MEK. Manual and machine washing.

Volume: **20L**
Recommended solution: 100%

PURPOSE

PARTS

WASHING PROCESS

INKS

MEK PVC Solvent

QUICKER Offset Cleaner

Cleaner and rejuvenator for dampening rollers. Fast removes ink and other contaminants.

Volume: **1L, 20L**
Recommended solution: 100%

PURPOSE

PARTS

WASHING PROCESS

INKS

UV Offset

Anilox roller cleaning

QUICKER Anilox GEL

Agent for cleaning ceramic anilox rollers. **MAY REACT WITH LIGHT METALS.** Manual washing.

Volume: **0,5L**
Recommended solution: 100%

PURPOSE

ANILOX

WASHING PROCESS

INKS

Water Solvent UV

QUICKER Anilox APC

Agent for cleaning ceramic anilox rollers. **MAY REACT WITH LIGHT METALS.** Manual washing.

Volume: **1L**
Recommended solution: 100%

PURPOSE

ANILOX

WASHING PROCESS

INKS

Water Solvent UV

QUICKER Anilox NEUTRAL

Liquid for washing anilox rollers in ultrasonic cleaners. Manual and machine washing.

Volume: **20L**
Recommended solution: 100%

PURPOSE

ANILOX

WASHING PROCESS

INKS

Water Solvent UV

QUICKER Anilox ULTRA

Liquid for washing anilox rollers in ultrasonic cleaners. **MAY REACT WITH LIGHT METALS.** Manual and machine washing.

Volume: **20L**
Recommended solution: from 30%

PURPOSE

ANILOX

WASHING PROCESS

INKS

Water Solvent UV

QUICKER Parts Cleaner

Concentrated liquid for spray and pressure cleaners. It effectively removes residues from flexographic inks. **MAY REACT WITH LIGHT METALS.** Machine washing.

Volume: **20L**
Recommended solution: from 50%

PURPOSE

ANILOX

WASHING PROCESS

INKS

Water Solvent UV

All-purpose

QUICKER Ink

A high performance general cleaner for use with all ink types. Very fast evaporating. Manual washing.

Volume: **20L, 1000L**
Recommended solution: 100%

PURPOSE

FLEXO ANILOX PARTS

WASHING PROCESS

INKS

Water Solvent UV

QUICKER Press

Liquid for cleaning and washing parts stained with water-based and UV inks. Manual and machine washing.

Volume: **20L**
Recommended solution: 100%

PURPOSE

FLEXO ANILOX PARTS

WASHING PROCESS

INKS

Water UV

QUICKER Press Max

Manual and machine washing. Liquid for rinsing and washing printing plates anilox rollers and other parts of printing machines stained with flexographic inks.

Volume: **20L, 200L, 1000L**
Recommended solution: 100%

PURPOSE

FLEXO ANILOX PARTS

WASHING PROCESS

INKS

Water UV

QUICKER Spray-On Cleaner

Agent for rinsing printing plates, anilox rollers and other press parts stained with flexographic inks. Manual and machine washing.

Volume: **1L, 20L**
Recommended solution: 100%, spray 100%

PURPOSE

FLEXO ANILOX PARTS

WASHING PROCESS

INKS

Water Solvent UV

Specialty formulations

QUICKER Anti Spume

Anti spume agent.

Volume: **500ml**

Recommended solution: 3 ml / bath

PURPOSE

FLEXO

WASHING PROCESS

Quicker Absorb Gel

Agent for gelling the solution formed after washing out water-based plates, flexographic plates.

Volume: **10kg**

Recommended solution: 1-3% / per weight of solution

PURPOSE

FLEXO

Quicker MAGIC

Cleaning formula which: protects the surface of printing plates, reduces surface tension, prevents ink intake by plates during print runs, prevents ink drying on non-printing surfaces, prevents drying of printing plates during archiving and bridging.

Volume: **500ml**

Recommended solution: Spray 100%

PURPOSE

FLEXO

To prepare the washing solution in processors

QUICKER POWER Wash

New formula. Concentrate for bath preparation for washing in processors.

Volume: **5L**

Recommended solution: 0,2-0,5% / bath

PURPOSE

FLEXO

WASHING PROCESS

QUICKER Wash Koncentra

STRONG ALKALINE concentrate for bath preparation.

Volume: **10L**
Recommended solution: 150 - 200 ml

PURPOSE

FLEXO

WASHING PROCESS

QUICKER Wash PLUS

ECOLOGICAL bath formula.

Volume: **10L**
Recommended solution: Max. 1%

PURPOSE

FLEXO

WASHING PROCESS

QUICKER Wash PRO

Powder for bath preparation. It has a softening effect in rinsing and washing solutions.

Volume: **3kg**
Recommended solution: 150g / bath

PURPOSE

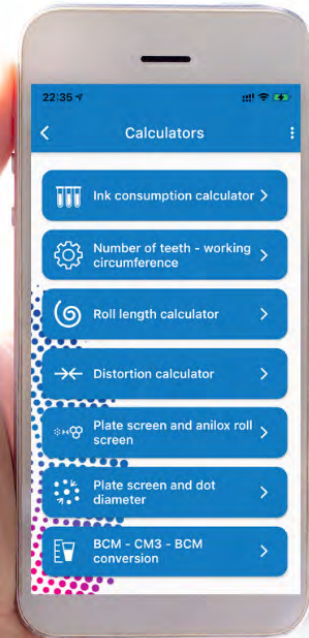

FLEXO

WASHING PROCESS
